Spring Barley, 2-row

FANGIO

SC 9447 S2, Listed in the UK 2020

High yields in continental environment
Very good malting quality, high FAN
Very good kernel quality

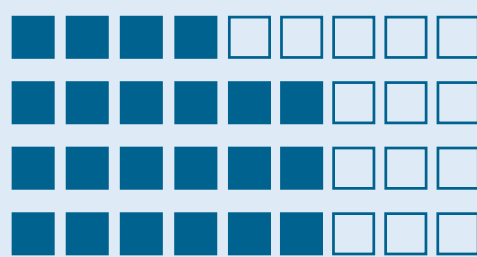

GROWTH STAGES

AGRONOMY

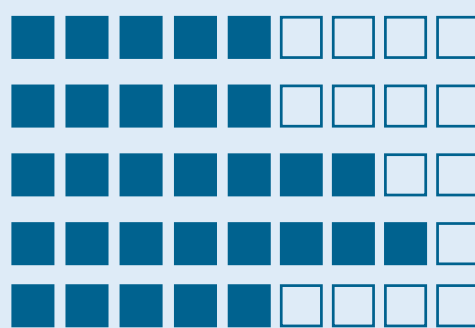

Height : Medium
Lodging : Good
Straw breaking : Good
Ear breaking : Good

Tillering : Good
Ear fertility : Medium
TKW : Good

DISEASE RESISTANCE

Rhynchosporium : Medium to good
Net Blotch : Medium to good
Brown Rust : Good to very good
Mildew : Very good
Ramularia : Medium to good

Others : Cereal cyst nematod resistant

QUALITY

Quality : Malting
Proteolytic profile : High
Grading > 2,5 mm : Very good

Spec. Weight : Good
Protein content : Low to medium

Very good malting quality : good extract, high cytolytic & proteolytic type with High FAN & DP

	Yield in OT* (Crop 18 & 19)
Treated	99,0 %
Untreated	100,0 %
Standards Varieties	* 2018&2019 (CONCERTO + PROPINO + KWS IRINA + LAUREATE)

Good combination of very good quality and consistent yield performances
